Morning Activity	English Writing Intensive (Mon-Thur; led by Mr. David)	Super-Math (Mon-Thur; led by LMS staff)	LMS Experience (Mon-Thur; led by LMS staff)		
Age Groups	Kindergarten through 6th grade (grades divided into lower, medium, and higher)				
Group Size	Minimum : 5 ; Maximum : 15	Minimum : 5 ; Maximum : 15	Minimum : 5 ; Maximum : 15		
Activity Description	Students will write, receive feedback, and do re-writes each week. Writing topics for older children will include literature, science, and technology. Writing topics for younger children will include rules for good English, toys, and games.	Even students who like math have a healthy fear of word problems. These problems are villains of the math world because solving them requires good English skills and logical thinking, not just calculation skill. Super-Math includes word problems, math puzzles, and math games that don't fit into the regular school year. The twin goals: make math easier, make math fun!	A set of unique academic programs for children Kindergarten through 6th grade. It works outside of the school system to help round out your child's education, and includes Chinese lessons.		
Duration	1 week / session ; Available for AM only, PM only, or All-day session
